### Blue Book Suggested Retail Value

The Kelley Blue Book Suggested Retail Value is representative of dealers' asking prices and is the starting point for negotiation between a consumer and a dealer. This Suggested Retail Value assumes that the vehicle has been fully reconditioned and has a clean title history. This value also takes into account the dealers' profit, costs for advertising, sales commissions and other costs of doing business. The final sale price will likely be less depending on the vehicle's actual condition, popularity, type of warranty offered and local market conditions.

#### Vehicle Condition Rating
